WELCOME TO THE HEALTH PARTNERSHIP PLAN
--

Welcome to the Health Partnership Plan (HPP). The HPP offers the highest quality network of physicians, hospitals and other health care providers. Florida Memorial Health Network (FMHN) and Volusia Health Network (VHN) and Florida Health Care Plan (FHCP) are your network providers. Participating in this coordinated self funded health care system provides you with quality services that promotes, enhances and maintains cost effective care while ensuring the health of our community.

Member ID Card

In order to expedite processing, we encourage you to carry your HPP ID card with you at all times. Present this card whenever you receive medical, dental or prescription services. This card contains important information, including addresses and phone numbers, necessary for discount claims payment, hospital admissions and pre-authorization of covered services.

You have the option of using this directory to select and obtain direct access to a physician of your choice. If you have questions regarding the status of any provider of healthcare services listed in this directory, please call either FMHN or VHN. If you elect to call a physician's office directly to arrange an appointment, please identify yourself as a HPP participant. When you arrive at your appointment be sure to present your identification card. Depending on the service provided, you may be responsible for an office visit co-payment at the time of service.

What services need to be pre-certified?

At least seven (7) days before an elective admission to the hospital, your physician must call "KePRO" Utilization Department. The telephone number is (888) 522-7742. The utilization review staff will evaluate your treatment plan to determine the medical necessity of your admission. This process is called pre-certification. Please refer to Pre-certification of the HPP Summary Plan Description.

Inpatient Services:

All non-emergency, hospital inpatient services must be authorized prior to admission.

Outpatient Procedures:

Some surgical procedures must be performed on an outpatient basis to obtain coverage. Your physician must contact KePRO for pre-authorization of such procedures.

Specialty RX Pharmacy Benefit with Catalyst Rx Customer Care Center:

- Certain medications used for treating complex health conditions must be Pre-certified, such as, Neulasta, Aranesp, Eloxatin, Taxol, Avastin, Zometa, Gemzar, Aloxi, Zofran, and Hylan, to name a few.
- Call KePRO at (888) 522-7742 for pre-certification for Specialty drugs

- To obtain the medication, call the Specialty Pharmacy at (888) 782-8443
- Access order forms at www.WalgreensHealth.com and just follow the Specialty Pharmacy Links

Other Services

HPP also requires pre-certification of certain outpatient tests. Review your Summary Plan Description provided by the County for specific utilization review requirements. Your physician must also contact KePRO for pre-authorization of such services.

Health Partnership Plan Directory

GLOSSARY OF PHYSICIANS BY SPECIALTY

Allergy

Diagnosis and treatment of allergies.

Anesthesiology

The study and administration of anesthetics.

Cardiology-Cardiovascular

The diagnosis and treatment of heart diseases, including the surgery involving your heart and blood vessels. A cardiovascular thoracic surgeon is sometimes known as a heart or chest surgeon.

Chiropractic

A system of therapy based on manipulation of the spinal column and other bodily structures, usually without drugs or surgery.

Colon and Rectal Surgery

The diagnosis and surgical treatment of diseases and disorders of the colon and rectum.

Dermatology

Involves the structure, functions and diseases of the skin.

Ear, Nose, Throat (Otolaryngology)

The diagnosis, treatment and/or surgery of these specific areas.

Endocrinology

The treatment of glands, including the thyroid, parathyroid, adrenal cortex, adrenal medulla, pituitary, testes, ovaries and pancreas.

Family Practice

A comprehensive medical practice emphasizing the family as a unit. A family physician's continuing care is not limited by your age, sex or even particular organ, system or disease.

Gastroenterology

The treatment of diseases of your stomach, intestines and related structures such as the esophagus, liver, gallbladder and pancreas.

Gynecology

The specialty which deals with diseases and treatment of the female reproductive system. A gynecologist can perform surgery to treat those diseases.

Hematology

The diagnosis and treatment of diseases of the blood-forming tissues.

Immunology

The science dealing with the study of the processes by which the body fights infection.

Internal Medicine

The specialty that involves the diagnosis and treatment of common, as well as complex, medical conditions which occur in adolescents and adults.

Neonatology

The treatment and care of premature and newborn babies.

Nephrology

The subspecialty of internal medicine concentrating on the function and structure of the kidneys.

Neurology

The diagnosis and treatment of diseases of the nervous system.

Obstetrics

Deals with pregnancy, childbirth and the immediate concerns of the mother and child.

Oncology

The diagnosis and treatment of tumors and cancer.

Ophthalmology

The science of eyes and their disorders. An Ophthalmologist is the physician who performs surgery on the eyes.

Optometry

The profession of examining, measuring and treating visual defects by means of corrective lenses.

Oral Surgery

The diagnosis and surgical treatment of diseases and conditions of the mouth, teeth and jaws.

Orthopaedic Surgery

The prevention or correction of disorders involving the skeleton, joints, muscles, fascia and other supporting structures such as ligaments and cartilage.

Otolaryngology

The medical specialty concerned with the ear, nose and throat.

Pathology

The study of diseases for their own interest rather than directly with an immediate view to curing them.

Pediatrics

The medical specialty that treats children.

Plastic Surgery

A surgical procedure that can be either cosmetic or reconstructive. A plastic surgeon repairs, restores or reconstructs tissue that has been damaged. Cosmetic surgery ranges from face-lifts to fat removal, while reconstructive surgery is used to rebuild missing tissue, such as a cleft lip or damaged tissue after an accident.

Podiatry

The diagnosis and treatment of foot ailments.

Pulmonary

The diagnoses and treatment of lung diseases.

Radiology

The use of x-rays and radioactive materials to diagnose and treat diseases and injury.

Rheumatology

The diagnosis and treatment of the joints, including arthritis.

Thoracic surgery

The treatment and surgery of diseases of the chest cavity.

Urology

The diagnosis and treatment of the urinary tract and its functions.

Vascular Surgery

The diagnosis and treatment of diseases and disorders of the blood vessels.
