After Hours Drug, Alcohol and/or Nicotine Testing

The Volusia County Occupational Health Clinic (OHC), located at 230 N. Woodland Blvd., Suite 250, DeLand, has business hours from 7:30 a.m. to 4:30 p.m. Monday through Friday (closed from noon to 1 p.m. for lunch).

Whenever possible, during OHC business hours, the OHC should be utilized for post accident/incident drug testing, random drug testing, drug testing pre-arranged per department policy, and/or nicotine/cotinine testing. Please call the OHC office at **(386) 736-5984**, prior to sending someone to the OHC for testing to ensure that there is a qualified technician available to do the testing.

After OHC business hours, holidays, and weekends call **EmployMed** at pager number **(386) 820-4993**. The automated pager will instruct you to provide your numeric message (provide call back phone or cell number) and then enter the pound sign (#) at end of your numeric message.

EmployMed will return your call as soon as possible. If required, you will need to specify that you need both urine drug testing and/or breath alcohol testing and what location the test will be conducted.

The drug, alcohol and/or nicotine test can be conducted only at the **EmployMed** (386-425-4502 - normal business hours) office location:

EmployMed
(386) 820-4993
775 West Granada BLVD.
Suite 102
Ormond Beach, FL 32174

The **EmployMed** charge will be billed back to the department requesting the testing.
