

CHAPTER 3

Public Schools Facility Element

[NOTE: This element was adopted on March 13, 2008. There are no amendments proposed for this element.]

CHAPTER 3

PUBLIC SCHOOL FACILITIES ELEMENT

GOAL 3.1:

Collaborate and coordinate with the School Board of Volusia County to provide and maintain a public education system which meets the needs of Volusia County's current and future population.

OBJECTIVE 3.1.1: COORDINATION AND CONSISTENCY

The County of Volusia shall implement and maintain mechanisms designed to coordinate with the School Board to provide consistency between Volusia County comprehensive plans and public school facilities and programs.

Policy 3.1.1.1: Pursuant to the procedures and requirements of the adopted interlocal agreement, the County of Volusia shall coordinate with the School Board on growth and development trends, general population and student projections to ensure that the plans of the School Board and County of Volusia are based on consistent data.

Policy 3.1.1.2: At the time of transmittal of the Public Schools Facilities Element, the County of Volusia shall develop a report of projects not subject to school concurrency and submit the report to the School Board within thirty (30) days of transmittal. The report shall include the type, number and location of residential units that have received subdivision or site plan approval and provide a projected annual rate of growth for such projects.

Policy 3.1.1.3: The County of Volusia shall provide the representative of the School Board with copies of all meeting agendas and staff reports.

Policy 3.1.1.4: The County of Volusia shall meet at least annually with representatives from the School District and the other local governments in Volusia County to review the Public School Facilities Element including enrollment projects. The timing and content of these meetings shall be done according to the requirements and procedures set forth in the adopted interlocal agreement.

OBJECTIVE 3.1.2: SCHOOL FACILITY SITING AND AVAILABILITY

The County of Volusia shall coordinate with the School Board on the planning and siting of new public schools and ancillary facilities to ensure school facilities are coordinated with necessary services and infrastructure and are compatible and consistent with the comprehensive plan.

Policy 3.1.2.1: The County of Volusia shall coordinate with the School Board to assure that proposed public school facility sites are consistent with the applicable land use categories and policies of the comprehensive plan. Schools shall be

permitted in all future land use classifications except for industrial land use classifications that contain industrial facilities that emit air pollutants and environmentally restricted land use classifications.

[Note: This additional language will make this policy consistent with an existing Policy 12.3.1.4 in the Chapter 12, the Conservation Element.]

Policy 3.1.2.2: Coordination of the location, acquisition, phasing and development of future school sites and ancillary facilities shall be accomplished through the procedures adopted in the interlocal agreement.

Policy 3.1.2.3: The County of Volusia and School Board will jointly determine the need for and timing of on-site and off-site improvements necessary to support each new school or the proposed renovation, expansion or closure of an existing school. If deemed necessary, the parties may enter into a written agreement as to the timing, location, and party or parties responsible for constructing, operating and maintaining the required improvements.

Policy 3.1.2.4: The County of Volusia shall encourage the School Board to land bank sites for future use as school facilities. The County of Volusia shall coordinate with the School Board on the acquisition and use of land banked sites in the same manner as established for other sites in order to ensure adequate infrastructure is planned and constructed in advance of school construction.

Policy 3.1.2.5: The County of Volusia shall protect schools and land banked school sites from the adverse impact of incompatible land uses by providing the School District with the opportunity to participate in the review process for all proposed development adjacent to schools.

Policy 3.1.2.6: In developing capital improvements plans and programs for public services, the County of Volusia shall consider required infrastructure to service existing and proposed schools and any land banked school sites.

OBJECTIVE 3.1.3. ENHANCE COMMUNITY DESIGN

The County of Volusia shall enhance community and neighborhood design through effective school facility design and siting standards and encourage the siting of school facilities in order to serve as community focal points and are compatible with surrounding land uses.

Policy 3.1.3.1: The County of Volusia shall coordinate with the School Board on opportunities for the expansion and rehabilitation of existing schools so as to support neighborhoods and redevelopment.

Policy 3.1.3.2: The County of Volusia shall collaborate with the School Board on the siting of public facilities such as parks, libraries, and community centers near existing or planned public schools, to the extent feasible.

Policy 3.1.3.3: The County of Volusia shall look for opportunities to co-locate and share the use of public facilities when preparing updates to the comprehensive plan's schedule of capital improvements and when planning and designing new or renovating existing, community facilities. Co-located facilities shall be governed by a written agreement between the School Board and the County of Volusia specifying operating procedures and maintenance and operating responsibilities.

Policy 3.1.3.4: The County of Volusia shall reduce hazardous walking conditions consistent with Florida's safe ways to school program. In conjunction with the School Board, the County of Volusia shall implement the following strategies:

1. New developments adjacent to schools shall be required to provide a right-of-way and direct safe access path for pedestrian travel to existing and planned schools and shall connect to the neighborhood's pedestrian network.
2. New development and redevelopment within two miles of a school shall be required to provide sidewalks within or adjacent to the property for the corridor that directly serves the school or qualifies as an acceptable designated walk or bicycle route to the school.
3. In order to ensure continuous pedestrian access to public schools, the County of Volusia shall consider infill sidewalk and bicycle projects connecting networks serving schools as part of the annual capital budget process. Priority shall be given to hazardous walking conditions pursuant to Section 1006.23, Florida Statutes.
4. The County of Volusia shall coordinate with the Metropolitan Planning Organization to maximize the funding from the Florida Department of Transportation and other sources that may be devoted to improving pedestrian networks serving schools.

Policy 3.1.3.5: The County of Volusia and School Board shall coordinate with Volusia County Emergency Services on efforts to build new school facilities, and facility rehabilitation and expansion, to be designed to serve as and provide emergency shelters as required by Section 1013.372, Florida Statutes.

OBJECTIVE 3.1.4: COORDINATE COMPREHENSIVE PLAN AMENDMENTS AND DEVELOPMENT ORDERS WITH SCHOOL CAPACITY

Manage the timing of new development to coordinate with adequate school capacity as determined by the Volusia County School District.

Policy 3.1.4.1: The County of Volusia shall take into consideration the School Board comments and findings on the availability of adequate school capacity in the evaluation of comprehensive plan amendments and other land use decisions including but not limited to developments of regional impact. School Board review shall follow the policies and procedures set forth in the interlocal agreement.

Policy 3.1.4.2: Amendments to the future land use map shall be coordinated with the School Board and the Public School Facilities Planning Maps.

Policy 3.1.4.3: Where capacity will not be available to serve students from the property seeking a land use change or other land use determination that increases residential density, the County of Volusia shall not approve the proposed land use change until such time as the School Board can find that adequate public schools can be timely planned and constructed to serve the student population or that the applicant has provided adequate mitigation to offset the inadequacies in anticipated school capacity.

GOAL 3.2: IMPLEMENT PUBLIC SCHOOL CONCURRENCY

The County of Volusia shall assure the future availability of public school facilities to serve new development consistent with the adopted level of service standards. This goal will be accomplished recognizing the School District's statutory and constitutional responsibility to provide a uniform system of free and adequate public schools and the County of Volusia authority for land use, including the authority to approve or deny comprehensive plan amendments, re-zonings or other development orders that generate students and impact the public school system. The County of Volusia shall operate and maintain in a timely and efficient manner adequate public facilities for both existing and future populations consistent with the available financial resources.

OBJECTIVE 3.2.1: LEVEL OF SERVICE STANDARDS

The County of Volusia through coordinated planning with the School District and implementation of its concurrency management system shall ensure that the capacity of schools is sufficient to support residential subdivisions and site plans at the adopted level of service standard within the period covered by the five-year schedule of capital improvements. These standards and the concurrency management system shall be consistent with the interlocal agreement approved by the School Board and the local governments in Volusia County.

Policy 3.2.1.1: The level of service standards for schools shall be applied consistently by all the local governments in Volusia County and by the School Board district-wide to all schools of the same type.

Policy 3.2.1.2: Consistent with the interlocal agreement, the uniform, district-wide level-of-service standards are set as follows using FISH capacity based on the traditional school calendar:

1. Elementary Schools: 115% of permanent FISH capacity for the concurrency service area
2. K-8 Schools: 115% of permanent FISH capacity for the concurrency service area.

3. Middle Schools: 115% of permanent FISH capacity for the concurrency service area
4. High Schools: 120% of permanent FISH capacity for the concurrency service area
5. Special Purpose Schools: 100% of permanent FISH capacity

Policy 3.2.1.3: The following schools shall achieve the adopted level of service no later than the identified date. The level of service presented in the following table is the tiered level of service that shall apply to that school unit the dated noted in the table.

SCHOOL	LOS	DATE
Orange City Elementary	117%	July 1, 2012
Horizon Elementary	158%	July 1, 2012
Freedom Elementary	126%	July 1, 2012
Osceola Elementary	117%	July 1, 2012
Ortona Elementary	150%	July 1, 2012
Ormond Beach Elementary	116%	July 1, 2012
Southwestern Middle	120%	July 1, 2013
New Smyrna Beach Middle	122%	July 1, 2014

Source: Volusia County Interlocal Agreement

[Note: This policy designates a tiered LOS for those schools that exceed the desired levels at the end of the five- year capital improvements program.]

Policy 3.2.1.4: The following schools shall be considered constrained schools at the designated LOS due to the inability to add capacity at the site and the nature of the communities they serve. Concurrency will be reviewed in the adjacent concurrency service areas and requests to increase residential densities in the constrained concurrency service areas will need to be accompanied by a plan to address school capacity.

SCHOOL	LOS
Burns-Oak Hill Elementary	115%
Coronado Elementary	115%
Samsula Elementary	165%

Source: Volusia County Interlocal Agreement

Policy 3.2.1.5: The County of Volusia and School Board recognize and agree that short-term changes in enrollment unrelated to new development approvals can and do occur, and that students enrolling in their assigned school will be accepted consistent with the School District's constitutional obligations regardless of the utilization levels at the assigned school.

Policy 3.2.1.6: If there is a consensus to amend any level of service, the amendment shall be accomplished by execution of an amendment to the interlocal agreement by all parties and the adoption of amendments to each local government's comprehensive plan. The amended level of service shall not be effective until all plan amendments are

effective and the amended interlocal agreement is fully executed. No level of service standard shall be amended without showing that the amended level of service standard is financially feasible and can be achieved and maintained within the five years of the capital facilities plan.

OBJECTIVE 3.2.2: SCHOOL CONCURRENCY SERVICE AREAS

The County of Volusia shall establish School Concurrency Service Areas as the area within which an evaluation is made of whether adequate school capacity is available based on the adopted level of service standard. Maps of the School Concurrency Service Areas are adopted in the Volusia County Interlocal Agreement for Public School Facilities Planning.

Policy 3.2.2.1: The concurrency service area for elementary schools shall be the elementary school attendance boundary as represented on the map series “Public School Facilities Element Elementary School Concurrency Service Areas” adopted as part of the Volusia County Comprehensive Plan and which is incorporated herein by reference.

Policy 3.2.2.2: The concurrency service area for middle schools shall be the middle school attendance boundary as represented on the map series “Public School Facilities Element Middle School Concurrency Service Areas” adopted as part of the Volusia County Comprehensive Plan and which is incorporated herein by reference.

Policy 3.2.2.3: The concurrency service area for high schools shall be as represented on the map series “Public School Facilities Element High School Concurrency Service Areas” adopted as part of the Volusia County Comprehensive Plan and which is incorporated herein by reference.

Policy 3.2.2.4: The concurrency service area for K-8 schools shall be the attendance boundary as represented on the map series “Public School Facilities Element K-8 Concurrency Service Areas” adopted as part of the Volusia County Comprehensive Plan and which is incorporated herein by reference.

[Note: No K-8 schools have been established at this time.]

Policy 3.2.2.5: The concurrency service area for special use schools shall be district wide.

Policy 3.2.2.6: The concurrency service area maps designate three areas where school capacity is not anticipated for the planning period.

Policy 3.2.2.7: Within the central concurrency service areas all current and future students shall be assigned to schools designated for them as part of the School District’s normal school assignment procedures. Requests for development orders for new development consistent with the future land use designations and existing residential zoning densities shall be evaluated for concurrency based on the adjacent concurrency service areas subject to the limitations in Policy 3.2.3.7. The school district shall

maintain a listing of assigned and adjacent concurrency service areas for each central school concurrency service area.

Policy 3.2.2.8: Requests to develop properties within the central school concurrency service areas at residential densities and intensities greater than the current land use or zoning designations shall be done via a comprehensive plan amendment consistent with the Volusia County Charter provision 206 regarding school planning. The comprehensive plan amendment shall demonstrate how school capacity will be met consistent with the terms of the First Amendment to the Interlocal Agreement for Public School Facility Planning effective July 2007 and Section 206 of the Volusia County Charter. If the project area is to be annexed by a municipality, the comprehensive plan amendment shall include an amendment of the central concurrency service area boundary by Volusia County to exclude the subject parcel.

Policy 3.2.2.9: Amendments to the School Concurrency Service Areas shall be completed according to the procedures specified in the Volusia County Interlocal Agreement for School Facilities Planning. Amendments to concurrency service areas shall consider the following criteria:

1. Adopted level of service standards shall not exceed the level of service standard within the initial five-year planning period
2. The utilization of school capacity is maximized to the greatest extent possible taking into account transportation costs, court approved desegregation plans, proximity to schools, ethnic and socio-economic diversity, subdivisions and neighborhoods, demographic changes, future land development patterns, crossing guard availability and other relevant factors.

OBJECTIVE 3.2.3: PROCESS FOR SCHOOL CONCURRENCY IMPLEMENTATION

In coordination with the School Board the County of Volusia will establish a process for implementation of school concurrency which includes applicability and capacity determination, availability standards and school capacity methods. The County of Volusia shall manage the timing of residential subdivision approvals and site plans to ensure adequate school capacity is available consistent with the adopted level of service standards for public schools.

Policy 3.2.3.1: School concurrency applies to residential development not otherwise exempt as specified by Policy 3.2.3.3.

Policy 3.2.3.2: Development orders may be issued for residential development where:

1. Adequate school capacity, as determined by the School Board, exists or will be under construction for each level of school in the affected concurrency service area within three years after the issuance of the development order allowing the residential development.
2. Adequate school facilities, as determined by the School Board, are available within an adjacent concurrency service area subject to the limitations of Policy

3.2.3.7. Where capacity from an adjacent concurrency service area or areas is utilized, the impacts of development shall be shifted to that area. If capacity exists in more than one concurrency service area or school within a concurrency service area, the School District shall determine where the impacts of development shall be allocated based on the School District policies for student assignment.

3. The developer executes a legally binding commitment with the School Board and County of Volusia to provide mitigation proportionate to the demand for public school facilities to be created by the actual development of the property as provided by Objective 3.2.4 and its supporting policies.

Policy 3.2.3.3: The following residential development shall be considered exempt from the school concurrency requirements:

1. Single family lots of record existing as such at the time School Concurrency implementing ordinance is adopted which otherwise would be entitled to build, shall be exempt from School Concurrency requirements.
2. Any residential development or any other development with a residential component that received approval of a Final Development Order or functional equivalent or is otherwise vested prior to the implementation date of school concurrency is considered vested for that component which was previously approved for construction and shall not be considered as proposed new residential development for purposes of school concurrency.
3. Amendments to residential development approvals which do not increase the number of students generated by the development based on the student generation rates for each school type as determined by the School District.
4. Age restricted developments that are subject to deed restrictions prohibiting the permanent occupancy by a resident under the age of fifty-five. Such deed restrictions must be recorded and be irrevocable for a period of at least thirty years.
5. Group quarters that do not generate students including residential facilities such as jails, prisons, hospitals, bed and breakfast, hotels and motels, temporary emergency shelters for the homeless, adult halfway houses, firehouse dorms, college dorms exclusive of married student housing, and religious non-youth facilities.

Policy 3.2.3.4: The creation of subdivisions and/or single family lots equal to or less than ten units shall be subject to school concurrency as part of an annual concurrency management review. The County of Volusia shall report such projects to the School Board as part of the annual planning coordination process established by the interlocal agreement and these units shall be included by the School Board in planning student allocations by school.

Policy 3.2.3.5: By February 1, 2008 the County of Volusia shall adopt a school concurrency ordinance which establishes the application procedures and process for evaluating school capacity and making concurrency determinations consistent with the provisions of the interlocal agreement.

Policy 3.2.3.6: The School Board shall conduct a concurrency review that includes findings and recommendations of whether there is adequate capacity to accommodate proposed development for each type of school within the affected concurrency service area consistent with the adopted level of service. The School Board may issue a certificate of school concurrency if sufficient capacity exists for the proposed development or the School Board may set forth conditions required to satisfy the requirements of school concurrency including proportionate share mitigation.

Policy 3.2.3.7: If the adopted level of service standard cannot be met within a particular concurrency service area as applied to an application for development order and if the needed capacity is available in one or more contiguous service areas, then this capacity shall be applied to the concurrency evaluation of the application for development approval subject to the following limitations:

1. Areas established for diversity at schools shall not be considered contiguous.
2. Concurrency service areas generating excessive transportation costs shall not be considered contiguous. Excessive transportation costs are defined as transporting students beyond the a transport time of fifty minutes one way as determined by School District transportation routing staff.
3. Concurrency service areas shall not be considered contiguous when the concurrency service areas are separated by a natural or man-made barrier such as a river, water body, or interstate highway that requires indirect transport of students through a third concurrency service area. (Refer to graphic examples.)
4. When capacity in an adjacent concurrency service area is allocated to a development application, assignment of the students to the school with available capacity may be accomplished by applying any of the techniques used to establish school attendance zones including modification of existing attendance zone boundaries or creation of island zones.
5. Student transportation not in conformance with the conditions established in items 1 through 4 above shall be permitted to allow student assignments based on specific educational programming options; to comply with State and Federal mandatory transfer opportunities; or for other transfer opportunities that School Board shall deem appropriate for the specific circumstances of an individual student.

[Note: Maps 10A, 10B & 10C are adopted as a graphic illustration of Policy 3.2.3.7.]

Policy 3.2.3.8: If the adopted level of service cannot be met within a particular concurrency service area the School Board may apply one or more of the following

techniques to maximize use of available capacity and provide for adequate numbers of student stations to meet current and future demand:

1. Construct new school facilities;
2. Construct additions to current facilities;
3. Adjust program assignments to schools with available capacity;
4. Modify attendance boundaries to assign students to schools with available capacity; and
5. Eliminate variances to overcrowded facilities that are not otherwise restricted by State or Federal requirements.

OBJECTIVE 3.2.4: PROPORTIONATE SHARE MITIGATION

The County of Volusia shall provide for mitigation alternatives that are financially feasible and will achieve and maintain the adopted level of service standard consistent with the School Board's adopted financially feasible work program.

Policy 3.2.4.1: In the event that sufficient school capacity is not available in the affected concurrency service area, the developer shall have the option to propose proportionate share mitigation to address the impacts of the proposed development.

Policy 3.2.4.2: Mitigation shall be directed toward a permanent capacity improvement identified in the School Board's financially feasible work program, which satisfies the demands created by the proposed development consistent with the adopted level of service standards.

Policy 3.2.4.3: Mitigation shall be directed to projects on the School Board's financially feasible work program that the School Board agrees will satisfy the demand created by the proposed development approval and shall be assured by a legally binding development agreement between the School Board, the County of Volusia, and the applicant which shall be executed prior to the County of Volusia issuance of the subdivision or site plan approval. If the School Board agrees to the mitigation, the School Board shall commit in the agreement to placing the improvement required for mitigation in its work plan.

Policy 3.2.4.4: The applicant's total proportionate share obligation shall be based on multiplying the number of needed student stations generated from the proposed project times the School Board's current cost per student station plus land cost for each type of school. The applicant's proportionate share mitigation obligation shall be credited toward any impact fee or exaction fee imposed by local ordinance for the same need on a dollar for dollar basis. (For example, if the proportionate share mitigation provides only for land, the credit is applied only against that portion of the impact fee or other exaction devoted to land costs.)

Policy 3.2.4.5: The student generation rates used to determine the impact of a particular development shall be the student generation rates adopted in the most recent school impact fee study.

Policy 3.2.4.6: The cost per student station shall be the most recent actual costs per student station, and capitalization costs if applicable, paid by the School Board for the equivalent school facility.

Policy 3.2.4.7: Mitigation options must consider the School Board's educational delivery methods and requirements and the State Requirements for Educational Facilities and may include, but not be limited to, the following:

1. Donation of buildings for use as a primary or alternative learning facility
2. Renovation of existing buildings for use as learning facilities
3. Funding dedicated to, or construction of permanent student stations or core capacity
4. For schools contained in the School Board's adopted five-year capital facilities work program, upon agreement with the School Board, the applicant may build the school in advance of the time set forth in the five-year work program
5. Dedication of a school site as approved by the School Board
6. Up front lump sum payment of school impact fees
7. Up front payment of interest and other costs of borrowing
8. Payment of off-site infrastructure expenses including but not limited to roads, water, and/or sewer improvements
9. Payment of transportation costs associated with the movement of students as a result of overcapacity school
10. Funding assistance with acquisition of school site
11. Phasing of construction or delay of construction in order to timely plan for the availability of school capacity,
12. Establishment of an educational facilities benefit district
13. Establishment of educational facilities mitigation banks

OBJECTIVE 3.2.5: CAPITAL FACILITIES PLANNING

The County of Volusia shall ensure existing deficiencies and future needs are addressed consistent with the adopted level of service standards for schools.

Policy 3.2.5.1: In accordance with the adopted interlocal agreement the County of Volusia shall collaborate with the School Board in locating required school sites as identified in the School Board's five, ten and twenty year capital facilities plan.

Policy 3.2.5.2: The County of Volusia shall ensure that future development pays a proportionate share of the costs of capital facilities capacity needed to accommodate new development and to assist in maintaining the adopted level of service standards via impact fees and other legally available and appropriate methods.

Policy 3.2.5.3: By December 1 of each year, the County of Volusia shall adopt as part of its Capital Improvement Element the Volusia County School District five year work program approved in September of each year as part of the School District budget including planned facilities and funding sources to ensure a financially feasible capital improvements program and to ensure the level of service standards will be achieved by the end of the five-year period.
