

Only those references which were allowed for use during the initial examination are permitted for use during the exam review. The length of the exam review is the same as that of the initial examination.

Be advised that the purpose of an exam review is to give candidates who did not pass their examination the chance to see the questions they answered incorrectly. It is not intended to teach the subject material and in order to be fair to all candidates Prometric cannot tell a review candidate why they got an answer wrong, how to calculate a problem to determine the correct answer or tell them which is the correct answer. In short, Prometric cannot provide the candidate with information that would help them derive the correct answer.

Also be advised that the examination may not be retaken on the same day as the exam review.

To schedule an exam review, please complete and submit the Exam Registration Form for National Construction Catalog Exams, making note that you wish to schedule an exam review instead of an examination. The fee for this service is \$80 per exam.

2013 Florida exam schedule

Exams are offered at the following locations each month. Locations and dates are subject to change.

Bonita Springs		Clearwater		Gainesville		Jacksonville	
Cutoff	Exam	Cutoff	Exam	Cutoff	Exam	Cutoff	Exam
