Mixers/loaders and applicators not in enclosed cabs or aircraft, must wear a dust/mist filtering respirator meeting NIOSH standards of at least N-95, R-95, or P-95. Repeated exposure to high concentrations of microbial proteins can cause allergic sensitizations.

2.2 Environmental Hazards
Do not contaminate water when disposing of equipment washwaters or rinsate. Do not apply directly to treated, finished drinking water reservoirs or drinking water receptacles when the water is intended for human consumption.

3.0 DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

4.0 STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal. Do not contaminate water when disposing of equipment washwaters.

Pesticide Storage: Store in a cool, dry place.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

5.0 DIRECTIONS FOR USE - VectoLex FG

5.1 Application Directions

MOSQUITO CONTROL
VectoLex FG is a selective microbial insecticide for use against mosquito larvae in a variety of habitats. VectoLex FG can be applied to areas that contain fish, other aquatic life, and plants. VectoLex FG can be applied to areas used by or in contact with humans, pets, horses, livestock, birds, or wildlife.

I. For control of mosquito larvae species* in the following non-crop sites:

<table>
<thead>
<tr>
<th>Habitat</th>
<th>Rate Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wastewater:</td>
<td>5-20 lbs/acre**</td>
</tr>
<tr>
<td>Stormwater/Drainage Systems:</td>
<td>5-20 lbs/acre**</td>
</tr>
<tr>
<td>Marine/Coastal Areas:</td>
<td>5-20 lbs/acre**</td>
</tr>
<tr>
<td>Water Bodies:</td>
<td>5-20 lbs/acre**</td>
</tr>
<tr>
<td>Dormant Rice Fields:</td>
<td>5-20 lbs/acre**</td>
</tr>
<tr>
<td>Waste Tires:</td>
<td>20-80 lbs/acre(1)</td>
</tr>
</tbody>
</table>

(1) 0.5-2 lbs/1000 sq. ft.
II. For the control of mosquito larvae species* in agricultural/crop sites where mosquito breeding occurs:

<table>
<thead>
<tr>
<th>Habitats:</th>
<th>Rate Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rice, pastures/hay fields, orchards, citrus groves, irrigated crops.</td>
<td>5-20 lbs/acre**</td>
</tr>
</tbody>
</table>

Apply uniformly by aerial or conventional ground equipment. Reapply as needed after 1 to 4 weeks.

* Mosquito species effectively controlled by VectoLex FG:
  - *Culex* spp.
  - *Aedes vexans*
  - *Ochlerotatus melanizon* (Aedes melanizon)
  - *Ochlerotatus stimulans* (Aedes stimulans)
  - *Ochlerotatus nigromaculis* (Aedes nigromaculis)
  - *Psorophora columbieae*
  - *Psorophora ferox*
  - *Ochlerotatus triseriatus* (Aedes triseriatus)
  - *Ochlerotatus sollicitans* (Aedes sollicitans)
  - *Anopheles quadrimaculatus*
  - *Coquillettidia perturbans*

** Use higher rates (10 to 20 lbs/acre) in areas where extended residual control is necessary, or in habitats having deep water or dense surface cover.

Avoiding spray drift at the application site is the responsibility of the applicator. The interaction of many equipment and weather related factors determine the potential for spray drift. The applicator and the treatment coordinator are responsible for considering all these factors when making decisions.

6.0 NOTICE TO USER

To the fullest extent permitted by law, seller makes no warranty, express or implied, of merchantability, fitness or otherwise concerning use of this product other than as indicated on the label.
