Hazardous Waste

Tom Carey

Pollution Control Activity Manager

tcarey@volusia.org

Ext. 12073

Tom serves the county as activity manager over hazardous waste programs, including the small quantity generator, noise, solid waste, and bio-solids programs. Tom leads the county's water conservation efforts as well as conducting monthly groundwater monitoring and producing the monthly groundwater report. He assists with fertilizer ordinance implementation and education and serves as staff support for the Indian River Lagoon Council.

Darrell Abrahamson

Environmental Specialist II

dabrahamson@volusia.org

Ext. 12424

Darrell is responsible for the Hazardous and Domestic Waste programs. He processes applications for Bio-solids, answers issues related to noise pollution, and conducts routine inspections of non-county solid waste facilities and wastewater treatment plants.

Joan Coil

Environmental Specialist I

jcoil@volusia.org

Ext. 12079

Joan is responsible for Program Management functions of the Small Quantity Generators (SQG) Program. She conducts on-site inspections of potential hazardous waste generators for compliance and applicable regulations and responds to complaints regarding hazardous materials in east Volusia County.

Sondra McCulloch

Environmental Specialist I

smcculloch@volusia.org

Ext. 12074

Sondra is responsible for Program Management functions of the Small Quantity Generators (SQG) Program. She conducts on-site inspections of potential hazardous waste generators for compliance and applicable regulations and responds to complaints regarding hazardous materials in west Volusia County.
