****No lined or graph paper will be accepted. No pencil drawing will be accepted****

****These documents shall be legible****

FOR ALL STAND-ALONE ENVIRONMENTAL PERMITS:

- One (1) boundary survey, not more than five (5) years old
- Site plan, to surveyor’s scale, showing shape and dimensions of parcel, any existing structures, size and location of proposed alteration(s), location of existing roads, platted rights-of-way, easements, water bodies, watercourses, wetlands, buffers, street name, property address, and any other information deemed necessary or appropriate by the Environmental Enforcement Official

(11) **Tree Clearing**

Lot Size _____ sq. ft. Frontage _____ ft. Depth _____ ft.

- Site plan, to surveyor’s scale, showing location of trees to be removed, trees to preserved, and tree barricades
- Do NOT clear until Environmental Permitting staff has inspected and approved the tree barricades, and has issued the permit

(3W) **Wetland Alteration**

Proposed Wetland Impacts _____ sq. ft.

Proposed Wetland Buffer Impacts _____ sq. ft.

- Site plan, to surveyor’s scale, showing location of wetland and/or buffer boundaries and proposed impacts to wetlands and/or buffers on site
- Set of construction plans, to surveyor’s scale, showing details of the proposed alterations (if applicable)
- Detailed written description of any proposed activity within the wetland and/or buffer
- Detailed mitigation plan to offset proposed wetland and/or buffer impacts
- Copy of the proposed conservation easement documents (if required)
- Copy of all other federal, state, and regional permits and/or applications and conditions issued for proposed project

(29) **Oak Hill Class II Compliance**

Size of Lot _____ sq. ft.

Size of Proposed Improvements _____ sq. ft.

Amount of Stormwater Retention Required _____ sq. ft.

Amount of Native Vegetation Required _____ sq. ft.

Cleared Prior to 1987? ___No ___Yes (if Yes, must provide documentation)

- Completed Stormwater Retention Permit Application
- Stormwater and natural vegetation plan, to surveyor’s scale, showing required square footage of each type of retention, proposed location(s) for retention, directional flow of stormwater, and location of downspouts and guttering. Stormwater **MUST** be directed to retention area(s) and plan **MUST** be functional.
- If any native vegetation is to be planted, a detailed planting plan is required, including the quantity, species, and location of all plants to be use within the natural vegetation areas. The planting plan must be submitted to and approved by Environmental Permitting staff *at least thirty (30) days prior to calling for final inspection*. If the duration of the project will be less than 30 days, the planting plan must be submitted with this stand-alone environmental permit application.

****ADDITIONAL INFORMATION MAY BE REQUIRED FOR SUBMITTAL****
