Composting and Gardening
May 2, 8:30 - 10:30 am Tuesday
Volunteers will learn about the benefits and best practices of composting. After the mini-class, volunteers will work in the Giving Garden, a garden in which 100% of the produce grown goes to a local food bank. Meet at Green Flamingo Organics at 398 N Putnam Grove Rd, Oak Hill.

Volunteer and Learn – World Turtle Day
May 22, 8:00 - 10:00 am Monday
Participants will learn about World Turtle Day and sea turtle protection in Volusia County. Join us to assemble signs that say, “Keep off the Dunes”. These signs will help protect gopher tortoises and their burrows. Volunteers will also help sea turtles by painting the stakes that mark off the sea turtle nests on the beach. These stakes protect the nests from vehicle and foot traffic. Meet at Mary McCloud Bethune Beach at 6656 S Atlantic Ave, New Smyrna Beach.
Upcoming Projects

Please call 386-736-5927 to RSVP.

Jetty/Beach Clean Up
May 23, 11:00 am - 1:30 pm Tuesday
Join us to learn about the threats of monofilament fishing line for wildlife. While the dive team removes fishing line from rocks underwater, volunteers can inform visitors about the cleanup effort and remove fishing line/trash from the beach and jetty area. After the dive, volunteers help the divers remove the lead for recycling. Meet at the jetty at Lighthouse Point Park.

Volunteer and Learn - Post Memorial Day Beach Clean Up
May 30, 8:00 - 10:00 am Tuesday
Join us the day after the Memorial Day Holiday in an effort to keep the beach clean. Busy beach weekends can lead to a large amount of trash left behind. Participants will help to remove as much debris as possible as they learn about sea turtle nesting season and how trash can impact sea turtles. Two locations: Meet Sun Splash Park in Daytona Beach or Winter Haven Park in Ponce Inlet. *When you RSVP, please indicate which location.*

Ongoing Projects

Lyonia Environmental Center
Needs Volunteers
If you care about animals and the environment, then volunteering is a great way to give back and get involved. The Lyonia Environmental Center needs your help with animal care, education, programs, and special projects. See the Lyonia Environmental Center website for details. Contact Paula Tedrow at ptedrow@volusia.org or 386-736-5927 ext. 21023.
Ongoing Projects

Protect our Waterways

Would you like to update your landscape using some beautiful plants that do not require excess water or fertilizer? Invite a guest speaker to speak with your HOA about some ideas.

Do you want to do something to improve water quality? You can mark storm drains in your area with “No Dumping” storm drain markers. All supplies are provided. Contact Christie Miller to schedule (386) 736-5927 ext. 12330. clmiller@volusia.org

Monofilament Recycling

Volunteers adopt a container and empty it on a regular basis. By removing fishing line from the environment, we reduce the entanglement risk for wildlife. Email us at MonofilamentRecycling@volusia.org to get involved.

Adopt-a-Trail Program

Do you enjoy hiking? Do you care about keeping the conservation lands beautiful? If yes, then Adopt-a-Trail may be right for you or your group.

As a trail adopter you will perform basic trail maintenance, remove litter and debris, mark and clear trails as needed, and report any issues along the trail at least four times a year. Email clmiller@volusia.org or call 386-736-5927 ext 12330 to sign up.

Do-It-Yourself Beach Clean Up with the Clean Swell App

Whenever you are at the beach, spend some time collecting trash. Log what you collect as you go using the Clean Swell app. You will contribute to Ocean Conservancy and Volusia Sea Turtle data and make the beach a cleaner place!

For more information email clmiller@volusia.org or call 386-736-5927 ext. 12330.
