Hurricane Protection Installer - DFE1V
Volusia County

Scope

A *Hurricane protection installer* is a person or firm qualified and certified to perform fabrication, repair, maintenance, installation, and attachment of exterior opening protection assemblies, including hurricane shutter assemblies and similar products to protect residential and commercial dwellings. A hurricane protection installer may brace existing garage doors to comply with the Florida Building Code but shall not install new garage doors. Any electrical work performed in connection with the installation of protection devices may be included in the contract but must be subcontracted to a certified or registered electrical contractor.

Examination Content Outline

The examination is based on trade-specific information pertaining to materials, tools, equipment, practices, terminology, and relevant laws. It is a two (2) hour, open book examination that consists of 50 questions.
