COUNTY OF VOLUSIA, FLORIDA
Reconciliation of the Balance Sheet of the Governmental Funds
to the Statement of Net Assets
as of September 30, 2006
Total fund balances of governmental funds
\$ 343,280,331

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. The cost of the assets is $\$ 859,763,378$ and the accumulated depreciation is \$393,915,426.

465,847,952

The cumulative effect of overfunding the actuarial required contributions to a pension fund does not represent a financial asset in the governmental funds. In the statement of net assets, which is presented on the accrual basis, an asset is reported since the adjustment to expense is fully recognized in the statement of activities.

208,466
Internal service funds are used by management to charge the costs of computer replacement, vehicle maintenance, risk management, and health insurance services to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets.

| Total net assets | $22,023,495$ <br> Less: Amount attributable to business-type activities$\quad$$(1,207,961)$ | $20,815,534$ |
| :--- | :--- | :--- |

Because some property taxes $(\$ 886,891)$ and special assessment revenues $(\$ 69,881)$ will not be collected for several months after the close of the County's fiscal year end, they are not considered as "available" revenue in the governmental funds, and therefore, reported as deferred revenues. In the statement of net assets, which is presented on the accrual basis, no deferral is reported since the revenue is fully recognized in the statement of activities.

Long-term liabilities are not due and payable in the current period and
    accordingly are not reported as fund liabilities. Interest on long-term
    debt is not accrued in governmental funds, but rather is recognized
    as an expenditure when due. All liabilities--both current and
    long-term--are reported in the statement of net assets. Long-term
    liabilities at year-end consist of:
\begin{tabular}{|c|c|}
\hline Bonds payable & 261,110,000 \\
\hline Less: Deferred charge on refunding (to be amortized as interest expense) & \((944,800)\) \\
