IT'S THE RIGHT THING TO DO...

Getting in compliance for mandatory recycling is easy!

Recycling is required if you own or operate a business or own nonresidential property in Volusia County.

One of the primary goals of recycling is to reduce the amount of waste entering the landfill. By doing your part, you can help save landfill space.

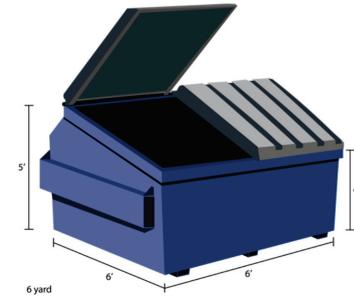

WHERE DO YOU START..?

The first thing business owners should do is determine what type of waste their business generates which waste is recyclable. Ask your employees or residents what they throw away the most.

A free Solid Waste Assessment can help you determine your recycle/solid waste needs. A specialist will assist in determining what type of debris is generated and advise what disposal system would be most beneficial to you and your organization.

To request a free Solid Waste Assessment, call Volusia County's Solid Waste Division at 386-943-7889.

CONTAINERS...

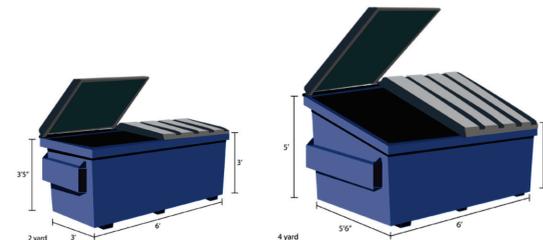

One six-yard garbage dumpster is equal to...

One four-yard dumpster + two recycle totes

OR

One two-yard garbage dumpster + one four-yard recycle dumpster
