

What are household hazardous wastes?

Household hazardous wastes are products that are toxic to the environment. They can contaminate water supplies and are common in homes or garages. They should not be placed in the garbage.

Household hazardous wastes include, but are not limited to:

- used motor oil
- automobile batteries
- household rechargeable batteries
- gasoline
- paint, thinners and solvents
- pesticides and fertilizers
- fluorescent bulbs and compact fluorescent bulbs
- pool chemicals
- cleaning supplies
- sharps (needles)

Tip: Keep waste in the original container when possible.

Recycling is our future

Businesses must dispose of all hazardous waste properly under federal law.

Businesses qualifying as very small quantity hazardous waste generators (VSQG) should contact Volusia County's Environmental Management Division by calling 386-736-5927 for disposal information.

Port Orange, FL 32128
386-947-2952

Hours

7 a.m. - 5:30 p.m. Monday through Saturday
Closed Sunday

West Volusia Transfer Station

3151 E. New York Ave.
DeLand, FL 32724
386-943-7889

Hours

7 a.m. - 5 p.m. Monday through Friday
8 a.m. - 3 p.m. Saturday
Closed Sunday

For additional information, please visit:

Motor oil

Motor oil is banned from landfill disposal and cannot be placed with your garbage. Because motor oil can contaminate water supplies if improperly disposed, county residents should recycle used motor oil only at oil recycling igloos at county fire stations and other facilities. For a list of igloo locations, call us or go to volusia.org/recycle.

Used paint

The "leave some, take some" free paint exchange at the Tomoka Landfill lets residents (no businesses, please) trade unwanted paint for a different color or type. Change a color, or just leave it. About 300 gallons of paint are recycled at the paint exchange each month. The facility provides paint to nonprofit organizations and families in financial need. For more details, please contact the landfill at 386-947-2952.

Car batteries

Car batteries may be taken to "buy-back" centers for recycling. Please call Volusia Recycles at 386-943-4905, 386-257-6021 or 386-423-3862 to find a location near you. By law, all stores should accept and recycle your old auto battery when you purchase a new one.

Electronics recycling

Residents may drop off obsolete electronics (including computers, monitors, printers and televisions) at the

household hazardous waste sites at the Tomoka Landfill and West Volusia Transfer Station.

Needles and diabetic-testing strips

The Florida Department of Health offers a sharps disposal program to help residents with certain illnesses, such as diabetes, dispose of hypodermic needles properly. Improper disposal could pose a public health hazard. The program is not intended for healthcare providers or businesses.

Residents may drop off needles and diabetic testing strips in approved red sharps containers without charge at these Florida Department of Health offices:

- 1845 Holsonback Drive, Daytona Beach, 386-274-0694
- 421 S. Keech St., Daytona Beach, 386-281-6500
- 775 Harley Strickland Blvd., Orange City, 386-822-6250
- 717 W. Canal St., New Smyrna Beach, 386-274-0546

Residents may also purchase sharps containers for a nominal fee at any of the locations listed above.
