

Why recycle?

Recycling doesn't just make sense. It makes a huge difference to our environment. By recycling right, we can protect our natural resources, our environment, and our quality of life.

Need another bin?

Residents who have too many recyclable items for their container(s) are asked to put the extra items in a paper bag placed on top of the recycling bin, or beside the bin if there is no room on top.

If you require a replacement or additional bin, please call us at one of the numbers listed below.

Recycling with the two-bin system

IT'S EASY
BEING
GREEN!

RECYCLE
AT HOME... AT WORK...

Two-bin recycling system

Volusia County's Solid Waste Division distributes two recycling bins to each household in unincorporated areas.

Two bins enhance our recycling program by improving the quality of what is recycled. Let's get back to the basics.

Please use one bin for paper materials including:

- Newspaper and inserts
- Phone books, junk mail and magazines
- Mixed residential paper
- Cardboard, including corrugated, cereal boxes, drink and snack boxes.

Helpful hints

Fold large cardboard boxes to 2 feet by 2 feet.

Do not tie or bundle flattened cardboard boxes.

Remove liners from food boxes.

The second bin may be used for:

- Aluminum and steel cans
- Glass bottles
- Plastic bottles coded 1 & 2

Helpful hints

Rinse plastic containers that may have held toxic or contaminated material before placing them in the recycle bin.

Rinse cans and jars to reduce odor and discourage pests, such as ants, from invading your bin.

No Styrofoam or plastic bags, please!

When in doubt, throw it out!

Single-bin system

If you have only one recycling bin, please place your bottles and containers in the bottom of the bin. Put paper materials in a paper grocery bag and place the bag on top of the other items.
