

Redistricting is underway

The Volusia County Council and Volusia County School Board are each divided into five districts, and members are elected from each of these districts. Every 10 years these districts are redrawn in line with the county's population as reported by the U.S. Census Bureau.

The purpose of these **nonpartisan** districts is to elect members to the County Council and School Board. The redistricting process will redraw the five districts so they are **compact, contiguous** and **as close in population as possible**.
