In accordance with the provisions of controlling law, even notwithstanding the fact that an exemption noted above may apply, the County hereby publishes the following information:

1. Summary of the proposed ordinance (must include a statement of the public purpose, such as serving the public health, safety, morals and welfare): The purpose of this ordinance is to expand the hours of construction activities throughout Volusia County, including both approved hours and an expansion of the exemption under the noise ordinance. This will allow the construction industry to take advantage of more daylight, get work going before the heat of the sun makes work more difficult, and result in more efficient construction process.

2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in the County, if any:

(a) An estimate of direct compliance costs that businesses may reasonably incur: Not applicable/zero dollars

(b) Any new charge or fee imposed by the proposed ordinance or for which businesses will be financially responsible: not applicable/zero dollars

(c) An estimate of the County's regulatory costs, including estimated revenues from any new charges or fees to cover such costs: not applicable/zero dollars.

3. Good faith estimate of the number of businesses likely to be impacted by the proposed ordinance: There are a total of 5,609 contractors doing business within Volusia County, any of which could potentially be impacted.

4. Additional information the governing body deems useful (if any):

Information on the number of contractors potentially impacted was gathered from the permitting department of the County and reflects those contractors who pull permits and take jobs within the County. Unlike other scenarios with fixed business locations, this number could increase should contractors from other counties decide to expand their businesses to Volusia.
