

VOLUSIA COUNTY

Building and Code Administration

123 W. Indiana Ave., Room 203, DeLand, FL 32720 | (386) 736-5929

MINOR RESIDENTIAL WORK — PERMIT EXEMPTION REQUEST

Submitted under Section 553.79(23), Florida Statutes, as created by CS/CS/HB 803 (2026) — effective July 1, 2026

This exemption applies only to qualifying single-family residential work valued under \$7,500. It does NOT authorize electrical, plumbing, structural, mechanical, or gas work, and does NOT apply to work located in a flood hazard area. Submitting this form does not constitute permit issuance; the County will log this request and notify you if a permit is instead required.

1. Applicant / Owner Information

Owner Name

Property Address

Parcel ID Number

Mailing Address (if different)

Phone

Email

2. Contractor Information (if applicable)

Complete only if a licensed contractor, rather than the homeowner, will perform the work.

Company Name

License Number

Phone

3. Description of Work

Scope of Work

Estimated Total Value of Work (\$)

Documentation attached showing the nature and value of the work (contractor estimate, receipts, material list, etc.) is **REQUIRED**. Requests submitted without supporting documentation will not be processed.

4. Applicant Attestations

By checking each box below, I attest to the following:

The total value of the described work is less than \$7,500.

This project has not been divided into smaller phases or separate requests in order to remain under the \$7,500 threshold.

The work does not include any electrical, plumbing, structural, mechanical, or gas work.

The property is not located within a designated flood hazard area, or if it is, a permit is being obtained separately.

I understand this exemption does not waive compliance with the Florida Building Code, and that the County may require a permit if the scope of work is found to exceed what qualifies for exemption.

Applicant Full Name (typed name serves as electronic signature)

Date (MM/DD/YYYY)
